City requests funds for new sewer plant

By Jeff Della Rosa Staff Writer [jeffd@nwanews.com](mailto:jeffd@nwanews.com)

Posted on Sunday, October 22, 2006

City Administrator David Cameron asked nearly 50 area officials Thursday afternoon for money to pay for the technology that will be used in the new \$ 20 million sewer treatment plant.

The membrane biological reactor technology will cost \$ 5.2 million. Zenon / General Electric will provide the technology.

“ We’re asking you to find it (funding ),” Cameron said. “ Please help us to move this project forward. ”

The technology will clean wastewater to the level that five Northwest
